### SEMINAR PROLOGUE :

THEME: "IMPLEMENTATION OF NEP 2020 IN NORTH-EAST INDIA: ISSUES AND CHALLENGES"

Education is the most powerful instrument for promoting national development. Quality education can ensure economic growth, social justice and equality, scientific advancement, national integration and cultural preservation of a country. Quality education is the best way forward for developing and maximizing our country's rich talents and resources for the good of

the individual, the society, the country and the world. In this context, we need an education policy that aims to address the growing developmental imperatives of our country.

The New National Education Policy was approved by the Union Cabinet on 29th July 2020 to bring about transformational reforms in school and higher education systems in the country. It is the first Education Policy of the 21st Century which is aligned with Sustainable Development Goal 4 and replaces the 34-year-old National Policy on Education (NPE), 1986. The announcement of the National Education Policy 2020 is the mechanism that envisions a radical transformation in the areas of teaching and learning with a holistic effort encompassing various subjects and disciplines for all round development of its future citizens. The policy is founded on the guiding goals of access, equity, quality, affordability and accountability. NEP 2020 is a visionary and comprehensive policy which will bring a paradigm shift in all sphere of education. Successful implementation of the policy depends on right type of strategic planning, larger vision and identification of the issues and challenges for implementation.

Therefore, we need a minute observation and discussion for the development of education in the nation in general and North East region in particular. This national seminar is an attempt to discuss the issues and challenges for implementing NEP 2020 effectively in the educational institutions. The conclusion drawn from the seminar would facilitate the organizers, participants and other stakeholders in making suggestions and legislative and policy-based interventions to bring about positive and wholesome transformation in the society and nation.
